WILL KEEP HIS PROMISE TO REDUCE THE TARIFF

**Taft's Statement Taken to Mean That He Will Veto
Tariff Bill in Its Present Shape.**

WASHINGTON, D. C., July 17.—All doubt as to where President Taft stands with regard to the downward revision of the tariff was swept away yesterday when a statement was given out at the White House setting forth in detail what the President had to say to twenty-three Republican members of Congress who called to protest against putting raw material on the free list.

The President declares that the Republican party is committed to a downward revision; that he has never had any other idea of the Chicago platform and that he personally has promised a downward revision to the people.

The statement was interpreted in some quarters here last night as a direct notification to the conferees on the tariff bill that if the measure they finally agree upon does not constitute a material reduction in specific duties the President will veto it.

The story of the conference is outlined in the White House statement, in the third person, which follows:

Taft's Statement.

"Mr. Young, of Michigan, opposed free ore; Mr. Mondel opposed free coal and reciprocity with Canada, and free hides; each on the ground that the policy would injure the interests of his State, and a discussion was participated in by other representatives who urged that the doctrine of free raw material was not a Republican doctrine.

"The President replied that he was not committed to the principle of free raw material; but that he was committed to the principle of a downward revision of the tariff, which he had promised, and that he was obligated to look at the matter, not from the standpoint of any particular district,

but from the standpoint of responsibility for the entire Republican party. He said the question in each case was a question of fact, to be determined by evidence as to whether the present duty was needed for protection or whether the rate was excessive, so that a downward revision or putting the article on the free list would not injure the industry.

"He repeated the platform of the Republican party and said he had always understood that it meant a downward revision in many instances, though perhaps in some few instances an increase might be needed; that he reached this construction of the platform on what he understood to be the principle of protection and its justification, namely, that after an industry was protected by a duty equal to the differences between the cost of production and the cost of production in this country, including a fair profit to the manufacturer, the energy and enterprise of American business men and capitalists, the effectiveness of American labor and the ingenuity of American inventors under the impulse of competition behind the tariff wall, would reduce the cost of production, and that, with the reduction and the cost of production, the tariff rate would become unnecessarily high and ought to be reduced.

Will Stand by His Promise.

"This was the normal operation of the tariff as claimed by the defenders of the protective system—not in every case, but as a general rule—that of course a revision of the tariff could not be perfect, must have defects and inconsistencies; but insofar as his influence went, when called upon to act in connection with legislation, it would be thrown in the direction of performing the promises of

DEATH OF MRS. WIENGES.

Expires at Home Saturday Morning at 8:25 O'clock.

From Sunday's Daily Sun:

Fannie, the beloved wife of Capt. S. H. Wienges, clerk of the circuit court, and one of the most prominent citizens of the county, died at their home in the northern section of the city at 8:25 o'clock Saturday morning, following a long illness of many months.

The deceased had been a patient sufferer for about three years, during which time everything known to medical skill has been done to relieve her of her sufferings, and while she had a complication of diseases her death was due directly to cancer of the liver.

She had passed a number of gall stones recently and it was thought this was the main seat of her trouble, an operation being performed for this immediate ailment, but later it was learned that the cancer was the main and most obstinate trouble. She expired with all the members of her immediate family around her at the time, and had survived from the operation which was performed on Friday at noon, being a successful piece of medical skill.

Mrs. Wienges was in her sixty-first year and had been a resident of this city for over twenty-five years, coming here when quite young. She was identified with the Methodist church, and Rev. F. R. Bridges will perform the funeral services today at the church, to which the friends of the family are invited.

Mrs. Wienges leaves, besides a noble husband, two children, Mrs. Beal, and one son, Charles, both of whom are living in this city, and who were with her at the time of her death.

The hour for the service has been set at 3 o'clock and the following gentlemen have been requested to act as pall-bearers, to meet at the stables of Davis & Oliver this afternoon at 2:30 for the purpose of going to the home: M. S. Cheves, P. G. Ramsey, W. D. Dickinson, W. W. Colson, A. J. DaCosta, L. W. Fennell. Dr. Thomas has charge of the remains.

The interment will be in Evergreen Cemetery, in the family burying grounds.

Attention, Bar Association.

All members of the Bar Association are requested to meet at the court house at 2:45 p. m. today for the purpose of attending the funeral services of Mrs. S. H. Wienges at the Methodist church.

the party as he understood them; and that if iron ore and oil and coal and hides did not need protection and that the conditions were such as to enable the ore producers and the oil producers and the coal producers and producers of hides to compete successfully, without reduction of wages, with the producers from abroad, then they did not need a duty and their articles should go on the free list. It was a question of fact which he hoped to make up his mind with respect to, on such evidence as was available to him in order to carry out what he understood to be promises of the party to the whole people.

"He said he felt that his position as the titular head of the Republican party and as President, with the whole people as his constituency, gave him a somewhat broader point of view than that of a single member of Congress in respect to articles produced in his district. He felt strongly the calls of the country for a downward revision within the limitations of the protective principle and he hoped to be able to respond to that call as he heard it, as well as in the interests of the party as of the country."

THE SHAH OF PERSIA LOSES HIS THRONE

**His Twelve-Year-Old Son, Ashmed Mirza,
claimed Shah Under a Regent.**

TEHERAN, July 17.—Mohamed Ali, Shah of Persia, was dethroned today and the crown prince, Sultan Ahmed Mirza, was proclaimed Shah by the National Assembly, composed of the chief Mujtehdas and the leaders of the National forces, in the presence of an immense crowd in Parliament square.

Mohamed Ali has taken refuge in the Russian summer legation at Zerehde, where he is under the protection of detachments of Cossacks and Sepoys attached to the Zerehde by the Russian and British diplomatic representatives.

The new Shah is yet in his minority, and Azad Ul Mulk, head of the Kajar family, has been appointed regent.

Teheran Quiet Again.

Sipahdar, one of the most active leaders of the movement, has taken office as Minister of War and Governor of Teheran. Gen. Liakhoff, through whose negotiations with the Nationalists the surrender was effected, was escorted yesterday afternoon by mounted Bakhtiari riflemen to the Parliament building and was greeted with loud applause by the people. He was informed that he might remain temporarily in charge of the Cossacks, provided he strictly obeyed the orders of the War Minister.

The shops and private houses occupied by the Shah's soldiers

To Brick City and Return For Seventy-Five Cents

The special train over the Coast Line will leave Gainesville next Tuesday either at 9 or 12 noon, whichever time is best suited to the citizens who are anticipating making the trip.

One of the lowest rates ever secured from here for a special train has been secured, and it will give the people of Micanopy, McIntosh and other intermediate towns a chance to spend the time there, whether they care to accompany the ball team or not.

A rate of 75 cents from Gainesville, 60 cents from Rochelle, 50 cents from McIntosh, and so on down the line as low as 15 cents from Zuber, has been secured, and this train will carry the largest crowd of Oak

Boll Weevil Not So Bad In the Lone Star State

DALLAS, Tex., July 17.—Prof. W. D. Hunter, the Government boll weevil experts, made public yesterday a statement saying the present status of the weevil is not so bad as at the same time last year. Dry weather is destroying 50 per cent of the weevils.

Following is the summary of Prof. Hunter's report:

In general it has been found that in central and northern Texas prairie regions less than 10 per cent of the fruit is infested.

In the valleys, naturally, the infection is somewhat heavier; in southern Texas from 10 to 25 per cent of

the fruit is infested. In Louisiana the infection ranges from 5 to 10 per cent. In Louisiana, south of Boyce, the infection ranges up to 20 per cent. In Mississippi in the neighborhood of Natchez 45 per cent of the fruit is infested, but the infection does not extend to the east and north of the Gulf of Mexico. Dry weather is now destroying 50 per cent of the weevils in squares that fall to the ground in Texas to about 20 per cent in Louisiana. The present status of the weevil is less threatening than last year. This is especially true throughout Texas on account of very dry weather.

Sea Island Cotton Firm In Savannah Past Week

SAVANNAH, Ga., July 17.—The Sea Island cotton market was firm the past week, with quotations unchanged. The business was mainly in the higher grades, say choice and above, the lower grades being practically neglected. Sales would probably have been larger but for the very limited offerings.

Crop accounts in the main are still quite favorable, especially from Georgia. There has, however, been rather too much rain and complaints of injury are being received from Florida. These complaints are accompanied by rumors of caterpillars in a few localities.

Sales for the week were 257 bales. The following prices were based on factors' quotations and are revised weekly on Fridays:

Married Man Elopes With Spouses Three Other Men

ELIZABETH CITY, N. C., July 15.—Geo. Burgess has destroyed all records in the North State by having a wife at home while escorting the wives of three other men to parts unknown.

The strangely infatuated women who fell in with the modern bluebeard are Mrs. Annie Farrell, aged 17, wife of Cleveland Farrell; Mrs. Sophie Morgan, wife of David Morgan, a well-known grocer, and Mrs. William Taylor, a relative of Burgess.

Mrs. Taylor, it is said, even tried to leave her baby in the care of friends in order to follow in the wake of the "pied piper."

The quartet left town together last week, the women paying their own fares.

Mrs. Burgess has just made public the fact of her husband's wholesale elopements, but does not appear to grieve so much over her recreant spouse as she does over the fact that he absconded with the family savings amounting to about \$100.

PALATKA WON SECOND GAME OF THE SERIES

Large Crowd of Gainesville People Visited the Gem City by Special Train to Witness the Game.

A large crowd witnessed the contest between Palatka and the Oak Halls in the Gem City Thursday afternoon when the disfigured lads that have put up such a strong representation for Gainesville during the past ten days went down in defeat—to rise again, however, for we will have the same whack at the entire lay-out on future days and it may then be them that have the broken bones to play.

The entire road trip has been one of hard luck, for no matter how well they played, some obstacle was in the way of getting runs.

With the boys tired out from their travels and hard playing, sickness, disfigurements and other ailments, they put up a good game, and we have no censure for them, but on the other hand have a cheering word and a hearty grip, for we know that such doses cannot be kept up, and it does make some difference as to "whose yard you are in."

The first two innings started off well and all began to think that it would be another real close game, but the third was what "spoiled thing" for here the umpire, Mr. Rowley, who was doing the stunts for the base-running, called a foul ball, and at the time Gainesville had two men on bases and the score tied. He

stuck to his first decision and after this there didn't seem to be any ginger whatever put up by the locals.

The effort of Spottswood, who had sustained a sprained ankle and could scarcely get about, was all that could be desired, but the men back of him were in the same deplorable condition—"banged up" and tired out, and they showed plainly that the "bear" had 'em.

Following is the score by innings:

Oak Halls . . . 0 0 1 0 0 0 0 0—1 5 5

Palatka . . . 0 0 2 1 1 0 0 0—4 9 2

Strike-outs—Walker and Dillon 9, Spottswood 8.

First on balls—Spottswood 2, Walker 1.

Wild pitches—Walker 1, Dillon 1, Spottswood 2.

Two-base hits—Denton, Miller and Dillon.

Passed balls—Bullock 3, Merritt 1.

Umpires—Hutchinson and Rowley.

The crowd that went over to meet the Oak Halls was fully as large as the Palatka aggregation at the game up until after the fourth inning, when it seemed that the news must have strengthened their courage, for they came in great bunches. The number that was on the train was estimated at about 250, but what they lacked in numbers was made up in strength, for it was a noble crowd of "rooters."

Manufacture Moonshine Liquor Steadily Increases

ATLANTA, July 15.—The moonshine business is on a boom, according to revenue officers making their headquarters here. The report for this district for the year ended June 30th will show the seizure of something like 1,000 illicit distilleries, or more than twice the number seized during the previous year.

More moonshine whiskey has been seized, they state, than in any two years since the war. There is scarcely a well concealed spot in all North Georgia but hides its moonshine still, they say, and although they have broken up a thousand of them during the year, there are probably a thousand more now just as busily at work.

The price of moonshine liquor has

gone up, so great is the demand for it since prohibition became effective. Where it used to sell for a dollar a gallon it now brings a dollar a quart, and the consumers don't like the trust prices. Consequently it has become considerably easier for the revenue officers to secure evidence against the illicit operators. The result is they have their hands full.

A splendid rigged up illicit still was seized the other day right in Atlanta city limits.

Peach brandy has begun to run, and most of the revenue officers are off now on another chase.

Florida Boy Has Fortune Awaiting Him in Texas

Where's Jack Manning?
This is a question being asked in Atlanta, Florida and Texas. For this young man, who eleven years ago went to Atlanta from Kynesville, Jackson county, Florida, a penniless and helpless orphan boy, accompanying an ill and enfeebled mother, has fallen heir to a fortune out in Lufkin, Texas.

All efforts to locate Jack have failed and his relatives, in a final desperate try, have written Mayor Maddox, of Atlanta, soliciting his aid. The following letter from the young man's step-grandmother, tells the story:

Kynesville, Fla., July 10, 1909.
City Mayor:
About ten or eleven years ago one Mrs. Carrie Bell Manning, the widow

of Dr. J. R. Manning, then reduced in circumstances, health-wrecked, left here with her little son, Jack, to try treatment in a hospital in Atlanta.

After a time, we could hear nothing from Mrs. Manning nor Jack. I presume she died.

I've been written to to give the whereabouts of Jack, as there is considerable property at and near Lufkin, Tex., for Jack, which he will inherit from his grandmother's, the Dr. Manning's estate.

I trust that you will in kindness to the orphan boy, if he is where you can find him, tell him. Let me hear from you. This is from Jack's step-grandmother.

THE TUCKER BUILDING NOW BEING RUSHED

CONTRACTOR WILL PLACE MORE MEN ON JOB AT ONCE.

This Section of City Very Popular Among Country Trade at Present Time.

Brick work has commenced on the new brick block of Mrs. Lois Tucker, which has been under way for the past six weeks, but has been greatly retarded owing to the weather conditions and the delay in securing the brick for the building.

About all of the material has now been hauled, however, and the contractor states that the weather seems to have abated, and Old Sol has put forth his appearance in sufficient quantity for him to order his crew of bricklayers to pursue the work of building the walls.

The work was started in a small way about two weeks since, but was stopped owing to the weather. However, from this time on it will be rushed as fast as the workmen can place the brick and mortar together.

This building will contain five store-rooms and each of them have been spoken for long before the building was commenced. This section, which has always enjoyed a fine trade from the country districts, will now spread with greater vigor when this building is completed, for it will embrace from a fruit stand to a general mercantile business.

PICTURE OF BUILDING.

Postmaster Lynch Receives the First Completed Copy Thursday.

Postmaster Lynch is in receipt of a picture of the Government building as it will look when completed, which shows it up to a nice advantage.

The picture is made from an engraving, taken from a pen drawing made by experts in the Government service and is a real beauty to behold, and those wishing to view the picture may do so by calling on Mr. Lynch at the postoffice.

The picture will be neatly framed and placed in the postoffice within a short while.

Help for Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Folsom, Iowa. EAST COAST RAILWAY ASKS FOR INJUNCTION

AGAINST FLORIDA RAILROAD
COMMISSIONERS.

Claims the Commission Seeks to Force
the Company to Do Things
Which Are Unreasonable.

Not very long ago the State Railroad Commission issued certain orders to the officials of the Florida East Coast railway compelling that road to do certain things which the railroad considers unjust and unreasonable. In order to get at the matter legally the railroad has filed a bill at Miami asking for an injunction and relief and to declare unjust and unreasonable these orders of the commission. Major Alex St. Clair-Abrams acting for the corporation. According to The Miami Metropolis the bill is signed by J. P. Beckwith, vice-president of the railroad company, and is directed to R. Hudson R. Burr, Royal C. Dunn and Newton A. Blitch, members of the Florida Railroad Commission, Augustus G. Hartridge, J. M. Rivers, and John C. Jones, State's attorneys for the Fourth, Eighth and Seventh judicial circuits of Florida.

The instrument seeks to restrain the defendants from enforcing their various recent orders, relative to the placing of a permanent agent of the company at White City, the building of combination stations for freight and passengers at Naranja and Viking, and building additional side-tracks and imposing certain fines.

At the outset, the bill declares that the members of the commission have had no practical experience or knowledge of the construction, operation or management of railroads, placing a foundation for the complaints following in the bill.

A rehearsal is made of the indebtedness of the Florida East Coast Railway Company, citing the \$12,000,000 of bonds bearing 4 1/2 per cent interest, secured by the first mortgage on the road from Jacksonville to Key West, and its branches, and the \$25,000,000 second mortgage to secure payment of the income bonds in a like sum.

It is averred in the bill that it would cost \$40,000,000 to rebuild the road. It gives the fixed charges of the road, annually, as follows: \$549,000 on account of the first mortgage bonds, \$135,000 taxes, and \$140,000 for insurance, additional betterments, unforeseen and extraordinary expenses. Five per cent per annum is paid for money advanced for the construction of the Key West extension.

It is claimed in the bill that the officials of the company are not paid larger salaries than their positions command, and that the road is operated and maintained in an economical manner. The petitioner goes on to say that the road has 581.7 miles of roadway at present, and will have 62.7 miles when the extension to Key West is completed, and that there is an average of but fifty persons to the mile along the entire roadway.

The declaration is made that at the present rate for charges on freight and passenger transportation, the road does not and will not earn for years, its fixed charges, and a reasonable interest on the income bonds. The business of the road increases slowly, the bill recites, and the persistent cutting down of rates ordered by the railroad commission and the increased expenses imposed by the commission has compelled the company to borrow money to meet the fixed charges.

The petition for relief further characterizes as unreasonable and unjust the requirements of the Railroad Commission, wherein the road is required to construct permanent passenger and freight buildings within two or three miles of each other, that it is not unreasonable and unjust for the Florida East Coast railway to expect from shippers and receivers of freight and from passengers that they shall travel over public roads a reasonable distance to regular stations to receive and deliver freight and take passengers.

The bill further declares that flag stations have been established to save growers of perishables the necessity of making long hauls, in order that their fruits and vegetables may be shipped promptly, and that the company has made side-tracks and spurs at short distances from each other wherever the acreage of fruit and

Doan's have done great work in this locality. Mrs. J. L. Warren of Starke, Fla., says: "For some time I was a victim of kidney trouble. The kidney secretions were too frequent, in passage, causing me the greatest annoyance and I suffered constantly from backaches and dull pains through the kidneys. I could not rest well and in the morning arose feeling tired and worn out. My back became very lame and I often found it difficult to get around. I at length read about Doan's Kidney Pills and procured a box. Since using them, I have been free from backaches and the soreness and lameness has disappeared. vegetables warranted such construction, and that, during the shipping season, the company provides cars that can be speedily loaded, and provides trains to take up the freight.

The bill goes on to say that the company is threatened with insolvency if certain orders of the commission are enforced, and gives out the statement that there has existed an annual deficit for a number of years, submitting the report of the comptroller of the road, showing the deficit for the years 1906, 1907 and 1908, which is given as follows:

1906	\$138,974.11
1907	225,406.68
1908	400,459.00

The bill for injunction and relief is the outcome more directly of the orders of the commission dated on March 26th, 1909, ordering the company to place an agent at White City, and to build stations at Naranja and Viking. The company claims that the business of these points is not sufficient to warrant the employment of a regular agent or the construction of stations.—St. Augustine Record.

Just one week more remains for R. H. Owen to live unless something happens within the next few days that will cause a change in his sentence.

Nothing further has been heard from Tallahassee in regard to the doomed man's fate and the officials there will take no action unless strong evidence is brought to bear why his sentence should not be carried out according to the finding of the jury.

Col. Chris. Matheson, one of the attorneys who has worked hard to save the man's life, states that they will forward another paper to the Governor regarding his condition, stating the facts as they now exist, and with this they feel that they have done all that could be done to save his life.

Owen is really not prepared to meet death, for while he states he has made his peace with God, he is about as rough as he was shortly after being confined and before he stood trial for the killing of the man at Newberry. At times he "curses like a sailor," and at other times he is busily engaged in reading his Bible, and it is according to the humor you strike him in whether he is civil or not. This has been one of the pleas of the ministers in endeavoring to have his sentence commuted, for Rev. Hay has tried hard to convince the man and save his soul.

All of the preparations were made prior to the reprieve and Sheriff Ramsey will have to go to no extra trouble now to follow the instructions of the law by hanging the man today week.

Owen's appetite has increased some again, and while he is still weak, he is somewhat stronger than he was a week since, when he was to have been hung. But he still states that he will be unable to stand upon the scaffold, and that in order to execute the order of the law Sheriff Ramsey will have to have some of his deputies hold him up while the trap is sprung.

Starved to Death

Is what could truthfully be said of many children who die. They have worms, poor little things—they don't know it and you don't realize it. If your child is cross, fretful, pasty-complexioned and loses weight for no apparent reason, give it White's Cream Vermifuge—you will be surprised at the results and how quickly it picks up. INCOME TAX AND OTHER DIRECT TAXES.

It may be laid down as an axiom, self-evident on its face, that nobody likes paying taxes. In any organized form of society taxes must be imposed, and the whole problem is how to place them where the burden will be easiest borne. This looks like an argument in favor of indirect taxation, but a little examination will show that because the taxpayer is ignorant of the exact amount of the impost, and precisely how he pays it, it does not follow that the burden is easily borne.

Indirect taxes in fact are always the heaviest, although we have not yet succeeded in making the average citizen recognize this fact. We have carried the evasion of taxes to scientific lengths in this country. It is like the old-fashioned children's game of "Button," where the last holder of that article pays forfeit. Under our present system the last holder is the small consumer and, to prevent any possible mistake, we sew the button on him with American thread. This is not to say that the small consumer or any other person of limited means should be exempt from taxation. On the contrary it would be a great deal better for the country and would tend to purity and economy in government if every voter paid direct taxes.

Taxes in Gainesville, for instance, tend to fall to an utterly unwarrantable degree upon holders of real estate. These are, of course, distributed as far as possible, so that the tenant pays in his rent. The storekeeper pays so much more for the privilege of doing business, and collects the municipal taxes from every workman's wife who buys a dozen eggs or a pair of stockings. The trouble is that the workman's wife has been taught to think that some terrible power (called "the trusts") is alone responsible for high prices. She does not dream of connecting the cost of living with the administration of the city's affairs.

A Federal income tax will at least be submitted to the various State legislatures, although the question of securing the necessary majority of consents will be open for debate for a long time to come. The tax is unquestionably sound in principle, and it will be highly unpopular in practice. It is so in Great Britain, but it may be said that it does not lead to one-tenth the amount of perjury which our imbecile personal property tax generates. It does stimulate a direct interest in the economical administration of government, just as a better system of imposing municipal taxes insures that London is run at one-fourth the cost of the city of New York to the tax payer.

What we want is a tax which cannot be shifted to other shoulders. In this respect the tariff, however valuable for infant, not to say sucking, industries, is among the worst of all taxes; while a municipal tax directly on the tenant, who is also the voter, and an income tax which reaches the man of small income are, in point of efficiency, the best type of imposts which human intelligence has yet devised.

SPRING PARK STOCK FARM.

The National Breeder's Gazette, published at Chicago, contains the following interesting sketch of Spring Park Stock Farm in its issue of July 7th, under the caption of "A Florida Stock Farm:"

"It will surprise many to learn that \$125,000 has been spent on the equipment of a pedigree cattle breeding establishment in Florida. Spring Park Stock Farm at Gainesville is one of the most completely equipped farms in America. It was founded on the enterprise and indomitable energy of N. A. Callison, an Illinois man who had mined phosphate for some years successfully, and who saw the future of stock improvement in Florida. Gainesville is the seat of Alachua county, which contains some of the richest soil of the State and some of the most enterprising farmers and truck growers. Spring Park is aptly named. Its 3,500 acres, comprising a number of plantations of ante-bellum fame, are liberally watered with ever-living springs. It is hammock land of strong character, breaking into mixed hammock toward its edges and then into pine land. The topography is most attractive, as the land rolls gently after the fashion of the famous Kentucky and Tennessee blue grass lands, and the picture is truly park-like. Mile on mile of woven wire

fencing has been stretched, and the equipment of barns, paddocks, mule lots, feed yards, and poultry yards is very complete. For some years this establishment was conducted by a company, with Mr. Callison a heavy stockholder and manager, but recently he acquired sole ownership. Hereford, Jersey and Berkshire herds of high character are maintained. The 'white-faces' have given a good account of themselves under Florida conditions, demonstrating thoroughly their great grazing ability, and the Jerseys take kindly to their environment. The latter are ready sale, as fair prices will be given for all the good family cows that Mr. Callison can raise. Ranchmen have begun to evince interest in the Herefords and the bulls are finding a market where they are most needed. Sound judgment was exercised in the selection of foundation stock, and although the cattle number 100 head only bulls, except occasionally a fresh Jersey. To supply the demand for family cows Mr. Callison is developing a number of grade Jersey heifers. The Berkshires are eye-openers. They are of the bluest blood and under their free field life carry that massiveness and flesh which characterize the modern type of the breed. The work of improvement will further be affected by a very superior boar which was recently placed at the head of the herd. Spring Park Stock Farm, in the quality and extent of the land, the permanence of its improvements, and the character of its stock, would be a credit to any State; it is a conspicuous monument to the stock improvement campaign which is gathering effective headway in Florida."

AN OMINOUS OUTLOOK.

Hereafter, according to the announcement of Dean Small, acting president of the University of Chicago, the professors are to be permitted absolute freedom of thought and speech, "even if the institution must suffer for it." This announcement is called forth by the case of Prof. George B. Foster, who was dropped from membership in the Chicago Baptist Ministers' Association on account of alleged heretical statements in his book, "The Function of Religion in Man's Struggle for Existence."

Has anybody ever doubted that the Chicago professors were free as the mountain air in the expressions of their opinions, no matter how bizarre the latter might be? And seemingly they have not been deterred by any fear that the university might "suffer for it." From declaring that John D. Rockefeller is a greater genius than ever Shakespeare was, to attacking the institution of marriage, they have run the gamut of crazy notions and continue to be a perennial source of news for sensation-loving journals. Now, with the bars thrown down, how they will frolic in the fields of fancy! "Absolute freedom of thought and speech!" Any day we may expect to hear of Prof. Bookworm's discovery that Elijah was snatched up, not in a chariot of fire, but in a primitive automobile car. Another professor will proclaim the original site of the garden of Eden to have been along Lake Michigan, the serpent coming from Peoria, where he made his headquarters and founded that town's famous industry. There are plenty of universities in this country which permit their professors liberty of thought and expression, and yet rarely do we hear of them indulging in extravagant assertions of the kind that bring ridicule upon the institutions they represent. While hoping for the best as the result of the announced new policy at Chicago, it will be as well to be prepared for the worst.

The signal corps of the U. S. Army has been issued instructions by the Secretary of War to prepare a plan for the protection of the Atlantic coast by dirigible balloons. The scheme involves the establishment of balloon houses all along the coast from Maine to Florida. The stations, if built, will be 250 miles apart, this being considered a safe distance of sight for the airship of the present day. The intention is for these aerial craft to go scouting at sea, turning and flying back to shore to give the alarm when the fleet of an enemy is sighted, but if Congress should provide for such a fleet, it would undoubtedly be ready before long to drop explosives on the ships of an enemy as well as simply scout.—From August Popular Mechanics.

TO YOUNG LADIES.

"Never put your arm through the handle of a jug," is a piece of advice given by an exchange to the young ladies. Most of them ought to know what it means without further explanation.

A woman is never so foolish as when she hopes to reform a man after marriage. "He loves me," she trustingly says, and because her own love is pure, she expects the pure article in return. Poor girl, you do not know the witchery of the jug, nor the strong bands which bind the soul of the man to whom your happiness is entrusted. True enough he is good-hearted and kind except when in liquor, but as his slavery increases his kindness decreases. While seeking for someone to shield him in his helplessness he may indeed flatter you that you, and you only, can redeem him. Many an error it hides, many a heartache it cures. But the lack of love soon follows protracted indulgence in folly. Young ladies, never put your arm through the handle of a jug.

A DANGEROUS GIFT.

Beauty is a dangerous gift. It is even so. Like wealth, says The Orlando Sentinel, it has ruined its thousands. Thousands of the most beautiful women are destitute of common sense humanity. No gift from heaven is so fatal as beauty. In about nine cases out of ten it makes a woman silly, senseless, thoughtless, giddy, vain, proud, frivolous, selfish, low and mean. We have seen more girls spoiled by beauty than by any other one thing. "She is beautiful, and she knows it," is as much as to say that she is spoiled.

A beautiful girl is very likely to believe she was made to be looked at—and she sets herself up for a show at every window in-door, on every corner of the streets, in every company at which opportunity offers for an exhibition of herself. And believing and acting thus, she soon becomes good for nothing else, and when she comes to be a middle-aged woman she is that weakest, most sickening of all human things—a faded beauty.

The press of the State generally has expressed the regret felt at the death at the early age of 33 of Dr. W. H. Powers of Ocala, a son-in-law of Frank Harris, the veteran editor of The Banner. A career which promised to be one of great usefulness and brilliancy was suddenly cut off. Dr. Powers was the son of the late Stephen Powers, formerly the agricultural editor of The Times-Union, whose place of usefulness to the agricultural and horticultural interests of Florida has never been adequately filled, and as the father's death was a loss to all Florida, so there is a feeling that in the death of the son the State has been bereaved of one who might, had he lived, have shed luster on it. To those who sorrow with a sense of personal bereavement The Times-Union offers its sympathy.—Times-Union Short Talks.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

THIRTY-EIGHT SENATORS ARE MILLIONAIRES

Representative Adair of Indiana Shows Controlling Influence in Enacting Tariff Legislation.

WASHINGTON, July 16.—There are thirty-eight millionaires in the United States Senate. Some of them are multi-millionaires. The thirty-eight are able to swing any proposition they desire. Is it reasonable to presume they would allow their fortunes to influence them in voting on an income tax?

Representative John A. M. Adair, who comes from a little town in Indiana, answered this query in one of the most remarkable speeches that has been made on the floor of the House in months. The country generally will never read Mr. Adair's speech, however. The great press associations, closely allied to the Republican party, do not "handle" speeches like Adair's, even when made in the American Congress. Speeches of men like LaFollette, even, are frequently ignored.

"The action of the Senate in dealing with the tariff emphasizes the fact that we have too many millionaires in that body," said Adair. "As I am informed, there are now in the United States Senate thirty-eight millionaires representing over \$140,000,000. What can the people expect at their hands but legislation designed to aid the special-privileged class.

"It is a shame and a disgrace, Mr. Speaker, that under our system of taxation the poor laboring man who has a wife and four or five children to support contributes more toward the expenses of the Government than does the millionaire who is too proud to raise a family and has no one to clothe and feed except a wife and a poodle dog.

"The State of New York has a tax commission, consisting of fifteen members, and that commission has made a report showing that the wealthy class of that State only pay tax on \$1 out of \$30, while the poor man, who cannot cover up his property, pays tax on every dollar he is worth. There are no more loyal and patriotic people on earth than those who work for wages, and they are willing to pay their just share of the Government expenses, but they do object to wholesale discrimination against them in favor of the rich.

"Mr. Speaker, I believe the future of this country depends on the enactment of legislation that will give equal rights to all men and special privileges to none. Under our present system of tariff taxation, and in the absence of effective anti-trust legislation, stupendous trusts and combinations have sprung, which have transferred a majority of the wealth of the country into the hands of a few people.

"There surely is much alarm in the fact 4,000 men now own over \$5 per cent of all the wealth of the country, and each one of the balance of

the 90,000,000 people owns less than \$500 in property. The records show, sir, that 51 men, who have been the beneficiaries of special legislation, now own \$4,000,000,000 of this country's wealth. It is a lamentable fact that one thirty-fifth of the entire wealth of the United States is therefore concentrated in the hands of 51 men, and these men are today dictating the legislation of this special session of Congress.

"The power to rule men by intellectual and moral force, the test of statesmanship of a former day, is fast passing away, while wealth, the uncrowned king, arrogantly rules in a domain where it is only fitted to serve.

"Now comes a new tariff bill, which promises to bear heavily on practically all of the people, and especially those who work for wages. Senator LaFollette has shown that on clothing alone the people will be robbed of \$120,000,000 annually, and this is but one of a thousand items where similar extortions will be practiced.

"The cotton manufacturers are given a prohibitive duty and have an absolute monopoly on their finished product. On \$6.25 worth of cotton cloth, such as is used by the plain people, there is a tax of \$1.57; under the Dingley law 100 yards of unbleached sheeting was taxed \$4, while under this bill it is taxed \$6.06, and the same is true all through the cotton schedule. Three dollars' worth of ordinary cotton stockings is taxed \$1.65. The woolen schedule is worse. On a woolen suit of clothes costing \$15 there is a tax of \$6.80. Twenty-five yards of worsted, valued at \$60, are taxed \$7.10. Twenty-five yards of cheap flannel, valued at \$8.75, are taxed \$5.25. Seven and a half dollars' worth of cheap woolen hats are taxed \$4.76.

"If this bill becomes a law the sugar trust will continue to rob the American people of \$55,000,000 annually, and the woolen manufacturers will continue to exact from the consumers over \$100,000,000 each year in excess of what is a fair profit; the United States Steel Corporation will continue to exploit the people of millions annually, while the 400 trusts set out in Moody's Manual will build up colossal fortunes wrung from the pockets of the working people.

"Mr. Speaker, on behalf of the laborer, who will be compelled to pay more for the necessities of life, and who already has a hard time to feed and clothe his family, I protest against the passage of this bill. On behalf of 9,000,000 poor working girls, who will be compelled to pay more for their dresses, more for their hosiery and gloves, more for everything they wear, I earnestly protest against the passage of this unjust measure."

TREMENDOUS VOTE POLLED IN CONTEST

MISS ESTEL BEAL ADVANCES TO FIRST PLACE IN THE CITY.

Only One Month Remains in Which to Do Your Work and Win the Prizes.

Just one month more and the great Co-Operative Contest will come to a close. All the candidates are now working with renewed vigor in the efforts to land the capital prizes awarded by the business houses of this city.

Aside from the capital prizes, the certificates to be awarded are worth a great deal in the purchase of a new instrument, for it will count as that much from the sale price of any instrument you select, so if you are not the first you might be among the five that will be given these certificates in each section.

The leaders all hold about the same standing as last count, except that Miss Beal leads Miss Goode, for with this exception they advanced all along the line at about the same ratio. In the southern section Miss Lorna McCredie is developing great strength and is holding her lead, while Miss Lucinda Bryant, in the western, has been a steady climber from the beginning of the contest.

Don't fail to take advantage of The Sun's most liberal offer in securing votes—because you can work in this manner while you are at home among your friends, and it will be the means of assisting you wonderfully.

Following is the result of the canvass:

BADLY INJURED BY A RUNAWAY HORSE

AN OLD CITIZEN OF JONESVILLE
SUFFERS BROKEN HIP.

Was Out Driving When the Animal
Became Frightened and He
Was Thrown Out.

From Saturday's Daily Sun:

J. J. Jones of Jonesville, one of the oldest citizens of that place, is suffering from a broken hip and other injuries sustained in a runaway during the first of the week which will cause him to be laid up for the next several days.

He was out driving, when the animal became frightened and ran away, throwing him from the buggy against a stump. His hip was broken and he was otherwise bruised from the fall, and for some time it was thought that he was in even a more serious condition.

Following the accident he was picked up and carried to his home, when a physician was summoned who dressed the wounds.

The many friends of Mr. Jones, who is known all over this part of the county, trust that he will soon be on the road to recovery, and nothing serious will result from the accident.

S.S.S. CURES OLD SORES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. Persia Is in Throes of a Great Bloody Conflict

TEHERAN, July 15.—Fighting in the streets of Teheran that has been going on more or less continuously since the Nationalist forces made their entry into the capital yesterday, became much more serious last night last night when the Persian Cossacks opened a heavy artillery fire on the Nationalists, who at that hour attempted to rush the Cossacks' position from the North and East.

The Nationalists succeeded in occupying a garden close to the house of Col. Liakhoff, military commander of Teheran, where they are now being shelled by the Cossacks.

Rifle and artillery fire has been practically continuous since Tuesday morning. The soldiers of the Shah

from the Sultanabad have approached to within three miles of the city, and are now shelling Bakarkistan, a quarter of the city where the Parliament building is situated.

It was reported yesterday morning that the Shah's troops are endeavoring to enter the city by one of the northern gates.

Sipahdar and Sadarassad, Nationalist leaders, have just transmitted the following message to the British and Russian diplomatic representatives: "In spite of the fact that Russian flag is flying over the house of Colliakhoff, the National forces are being fired on by Persian cossacks stationed under the roof of this house."

Standing Up For Him.

"Miriam, isn't that young Fergus coming to our house pretty often now?"

"I suppose he is, mamma."

"Do you know anything about him?"

"What is he worth, for instance?"

"Well, he's worth any dozen of the ordinary young men of my acquaintance."

"Yes, but—"

"And he's worth \$100 a week to the firm he works for, even if he does get only \$25 now."—Chicago Tribune.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by all druggists.

HUGE BUILDING FALLS TAKING SEVEN LIVES

Five-Story Structure Crashes Down Without Warning Upon Nearly Two Score of Workmen.

PHILADELPHIA, July 16.—In one of the busiest sections of the city and at a time when thousands of pedestrians were passing to and fro, the five-story brick building at the northeast corner of Eleventh and Market streets, which was being reconstructed for the United Gas Improvement Company, collapsed with a terrific roar yesterday afternoon, burying or pinning beneath the ruins thirty-two persons, seven of whom are dead, one missing, one fatally injured and twenty-four more or less seriously injured.

The dead are Charles Larsen, 45 years old, substitute foreman of carpenters; Peter Fritz, 55 years old, carpenter; Paul Hanning, 49 years old, laborer; Alfred Davis, 18 years old, negro laborer; Sigmund Lansberg, 23 years old, laborer; Alvin —, 50 years old, a Swede, and an unknown man, terribly mangled.

James Haggerty, 30 years old, with a fractured skull, is fatally injured.

The two lower floors had been torn out and the three upper floors were shored up by heavy timber. Steel girders were bracing the shoring. It is supposed that by moving one of girders, the entire structure was loosened. The crash came without warning, and narrow escapes were many.

Thrilling Rescues Made.

The roar of the collapse was heard for blocks. Bystanders and passersby fled in desperation, as it was thought an explosion had occurred. When

they realized what had happened, people flocked to the ruins and began a series of thrilling rescues.

Before professional aid could be mustered, automobiles, teamsters' wagons, and all sorts of nearby vehicles were filled with the dead or injured and hurried to hospitals. It was a sweltering day and several of the rescuers were overcome by the heat and dust from the debris.

Almost as strenuous as digging up the injured was the task of keeping the congested masses of people from surrounding too closely the wreckage. The walls which were left standing looked unsafe, but the people surged forward heedless of the danger.

For a time service on the subway line which runs along Market street in front of the building was tied up. A woman subway ticket seller, terrified by the crash of the collapse and the shower of bricks and stones that dropped down the subway stair, fainted in her office.

Many instances of heroism were witnessed. One man whose leg was broken was pinned beneath some timbers. When firemen came within hailing distance he asked that they attend the more seriously injured.

The entire fourth floor of the building lay slant against the side of the adjoining building cutting off air in a section twenty feet square, where it is believed the missing man is buried. Workmen last night continued digging in the ruins.

Harry Thaw Threatened Life of His Young Wife

WHITE PLAINS, N. Y., July 16.—Harry K. Thaw's wife, formerly the chorus girl, Evelyn Nesbit, went on the stand here yesterday and gave damaging testimony against him. It was the strongest point scored so far by the State in its fight to keep Thaw in the asylum for the criminal insane at Matteawan. When the day's session was concluded, adjournment was taken until July 26.

For three days the State has been trying to bring out that Thaw threatened his wife's life on one of her visits to Matteawan, as tending to show his irrationality. Blocked at first by objections, sustained by the court, Thaw's attorney at last failed to show that the alleged conversation at Matteawan was confidential, as between man and wife, and when Evelyn Thaw took the witness chair yesterday afternoon her lips were unsealed. She related as if in fear, Thaw's alleged threat to take her life if he were released from the asylum.

Whether assumed or not, she expressed apprehension while testifying she was quoted afterward as saying that she testified because of the treatment she received at the hands of the Thaw family, but on the stand she apparently struggled hard not to tell, and when compelled to do so by the court, she obeyed reluctantly and tearfully.

"Did Harry K. Thaw threaten to take your life?" she was asked directly by Deputy Attorney-General Clarke.

The court room was hushed and Evelyn Thaw turned appealingly to Justice Mills. She begged to be allowed not to answer, because she said

she knew she would incur his everlasting animosity.

But the court ruled that the only possible grounds upon which she could decline to answer were that it would tend to incriminate her, and he added that he did not see how that would be applicable to her situation. Then Evelyn Thaw answered the question.

"Yes, he did," she said in a low voice.

"What were his exact words?" demanded Mr. Clark.

"He said, 'When I get out of here, I suppose I will have to kill you.'"

"Why did he say that?"

"We were discussing his mental condition. I had asked him what he meant, and he said: 'You knew I was not crazy on the night that I shot White.' I asked him again and he said: 'You know that I missed White by two minutes on the day before.'"

Thaw, when asked about his wife's testimony after court, said he was not surprised at her attitude, but denied that he had ever threatened her life.

Dr. Adolph Meyer, of the New York State Lunacy Commission, testified that he talked with Thaw about the reasons which led him to shoot Stanford White, principally alleged debauching of young girls, which Thaw said was carried on in White's various rendezvous.

Anthony Comstock, president of the New York Society for the Suppression of Vice, described his efforts to assist Thaw to get sufficient evidence of White's practice to prosecute him criminally. He believed Thaw sane.

GREAT ELKS' PARADE IN LOS ANGELES, CAL.

LINE OF MARCH WAS MORE
THAN THREE MILES LONG.

Twelve Divisions Made Up the Parade, a Brass Band Heading Each in the Procession.

LOS ANGELES, Cal., July 16.—Fifteen thousand men with decorated floats and carriages, forming a line more than four miles in length, composed the great Elks' parade, which yesterday passed for three hours through the principal streets, lined with immense crowds.

Twelve divisions made up the parade, each headed by a brass band, with trumpeters and other musical organizations interspersed. Officers of the Grand Lodge of Elks were in gorgeously decorated carriages in the front of the line. As the procession moved, drill corps of the various lodges performed striking evolutions, and the music of the many bands was punctuated at frequent intervals by shots fired from the cannon of Revolutionary days, hauled by a squad of Spokane, Washington, lodge, uniformed in costumes of the time of Washington.

Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.

Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

TAKE CARDUI

J 36

It Will Help You

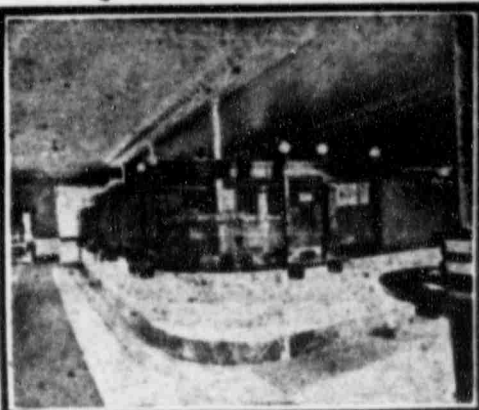

Mrs. Katie Burlison, Goreville, Ill., tried Cardui and writes: "I suffered with female troubles, and was so sick I could not stand on my feet. Finally I began to take Cardui, and soon began to mend. Now I am able to do all my housework and am in much better health than I was before." Try it.
